SOUTH SIDE NEWS

Hot Weather Is Here With Us

And We Are Here With the Goods

Never before in the history of the firm have we had a better and more complete stock and better variety of hot weather goods.

If it is a hat you need, we can fit you; we can suit you and at the same time accommodate your pocketbook as our prices range from 50c to \$8.00.

In shirts we can suit the most fastidious dresser as our stock is complete in sizes, colors, styles and prices. 50c to \$5.00.

In shoes, no higher assortment was ever gathered under one roof; styles, shapes, leathers, qualities and the right prices are all combined in Hyder's shoes and if you are in doubt, try a pair.

We would like to call your attention to our underwear, hosiery, night shirts, pajamas and the many numerous articles we have for your inspection.

A look will satisfy you.

TEMPE

COUNCIL MEETS IN SPECIAL SESSION

Standing Committees Are Appointed and Other Business Transacted.

The town council held a special meeting Friday night to transact some left over business from the regular monthly meeting held the night before. All members including a number of the more enthusiastic citizens were present.

The contract for operating the town sprinkling wagon was let to George Nichols whose bid called for ninety dollars per month and he furnishes his own team. The only other bid was that of Thomas E. Argue for one hundred dollars a month. There appears to be some misunderstanding between the new council and C. A. Corbell, who has operated the sprinkling wagon for the past year. The old council held a meeting the first of this month and renewed C. A. Corbell's contract to extend over a period of another year, it having terminated the last of May. But there seems to be a mistake in that the old council had not the proper authority to renew the contract. Since that was the case the new members called for bids and derive the aforementioned results.

The meeting of the council Thursday night has already shown its effect upon the streets. In accordance with the council's order, Marshal M. C. Browning had a force of men at work all day yesterday removing and leveling the bumps caused by the installation of the new cross walks up on Mill avenue. Several loads of gravel have been placed surrounding the walks so that those which were finished last evening, appeared to be the same as any other part of the street. Although the work of leveling up these bumps has just been started it certainly adds a good deal to the appearance of the streets and comfort of those persons inclined to speed a little upon going through town.

During his spare hours the last two days, Marshal Browning has been making a round of all houses using city water to see that all faucets are properly fixed so that they do not leak. He intends to start in tomorrow morning on the mosquito and has started this as a forerunner for all water holes should be dried out, in order that the mosquito may not breed there. The marshal would appreciate it if all those he have not already visited would see that the water fixtures under their property are in good condition. It is hoped that everybody will join in the campaign against the mosquito and completely exterminate it in this vicinity. Oil will be placed in all water holes the first of the week by the town but everybody should assist in the matter.

Mayor J. T. Birchett has appointed the following standing committees in the council:

Finance—Fogal, Miller and Goodwin.

Water—Miller, Nielsen and Goodwin.

Street—Nielsen, Miller and Fogal.

Ordinance—Goodwin, Miller and Birchett.

CONVICTS VS. LOCAL TEAM TODAY.

The manager of the Tempe ball team has been doing his best all week to locate and arrange for a good ball game today but the best he has been able to do is to secure a game between two local teams. The game is to be played between the convicts

and the local town team on the former's ground. A force of men are going to work early this morning on a grand stand which will afford good seats and shade for the spectators. The game will be called about three o'clock.

WILL PREACH TONIGHT.

Dr. L. C. Barnes of New York and field secretary of the American Baptist Home Mission society will preach this evening at 8:15 in the Baptist church. It is his only chance in Tempe on his western tour and it will no doubt be a rare treat to hear him. One should not miss the opportunity.

LESSONS FOR YOUNG PEOPLE'S SOCIETY.

The committees from each of the churches of Tempe met Monday evening and organized the Union Young People's society for the summer. The following officers were elected: Miss Jessie Waterhouse, president; Miss Daisy Buck, secretary. The following program for the summer was completed:

June 16, "The Duty of Being Pleasant." Ps. 133:1-3. Leader, Russell Windes.

June 23, "Reading What Is Worth While." 1 Tim. 4:7-16. Mrs. B. H. Scudder.

June 30, "The Christian Virtues." Honesty. Rom. 12:9-17. Miss Anna Blount.

July 7, "Infancy (Good Citizenship)." Atmosphere and First Impressions." Luke 2:7-20, 24-29; Matt. 2:1-12; 1 Sam. 1:20-23. Miss Flossie Dines.

July 14, "Possibilities of Childhood; the Efficient Home." Luke 2:40-51; 1 Sam. 3:1-10. F. H. Simmons.

July 21, "Christian Common Sense." Prov. 4:1-9. Miss Hallie Homelley.

July 28, "How Much Should a Christian Think of Personal Appearance?" 2 Kings 9:30-35. Ps. 45:7-15. Mr. Windes.

August 4, (Epworth League Topic), "The Growth and Culmination of Decisions; Jesus Assumes His Life Work." Mark 1:9-11; Isa. 61:1-11. Kenneth Johnston.

August 11, "Renunciation of Self-Dependence; the Power of Need." Matt. 4:1-4; Ex. 3:11-12. Miss Burton.

August 18, "Renunciation of Spectacular Methods; the Modesty of Strength." Matt. 4:5-7; 1 Sam. 17:30-40. Miss Jessie Waterhouse.

August 25, "The Permanence of Truth." Dan. 12:1-4; Rev. 2:17. (Epworth League topic). Miss Maude Cole.

Those interested in work along this line should cut this schedule out and paste it up in some conspicuous place in order that they may attend every Sunday night fully prepared to help in the meeting. An earnest, cordial invitation is extended to all to attend and cooperate with the leader that these meetings may be a success and a blessing.—Committee.

TO TEACH AT FLAGSTAFF.

Prof. F. M. Irish, teacher of sciences in the Tempe Normal school, left yesterday for Flagstaff where he has spent the past three summers teaching along the same line of work in the summer school being conducted at that place.

MOVED FOR THE SUMMER.

Mrs. M. L. Quinn and two daughters left yesterday morning for Ray where they will spend the summer with the rest of the family. Their home on East Eighth street is to be occupied by Misses Jessie and Roxie Sturgeon during the summer months.

WHY NOT OBSERVE A HOLIDAY?

It looks as though Tempe might at least follow in the footsteps of Phoenix now, and observe a half day of each week as a time for recreation. Phoenix has set Thursday aside and why cannot Tempe do the same? Thursday would not necessarily have to be the day but that could be settled later, the first to do is to ascertain that all of the local merchants will consent to giving their clerks a half day off during the week aside from Sunday. It is an assured fact that the clerks would not refuse it were they given the opportunity to express their views upon the subject. There are possibly not over three or four people in town but what would be glad to do the charitable act, and they might give in were they confronted with a petition signed by all other merchants in town. It is up to somebody to circulate the petition.

TO HAYDEN.

Mrs. T. H. Dennis left Friday morning for Hayden where she will spend the remainder of the summer with her husband.

MESA

TWO FRATERNITIES SURPRISED A MEMBER

Mrs. Lottie Jones, who will leave soon for the Coast, Given a Goodbye Sendoff.

Mrs. Lottie Jones, wife of Arthur A. Jones, expects to leave for the coast in a few days, and on Friday night the members of the Woodman Circle and those of the Lady Macabees of the World, in both of which Mrs. Jones is an official, determined to show their good will and appreciation of her services as a lodge member by a farewell party. The recipient of the party was kept in complete ignorance of the affair, proof that ladies can keep a secret—sometimes. For a short time past Mr. and Mrs. Jones have been stop-

ping with the family of W. M. Newell, Sr., Mrs. Jones' parents, and it was at the latter's home that the party was given. The conspirators congregated at an appointed rendezvous and wait in a body to the Newell home. Mrs. Jones was taken entirely unawares, but rose to the occasion and bade all the ladies a hearty welcome. The evening was passed as such occasions generally are among long time friends and all had a good time. Refreshments of orange sherbet, chocolate ice cream and cake were served, games were played and there was an abundance of good music. On leaving at a late hour the ladies all wished Mrs. Jones a pleasant summer by the seaside and a number hoped to meet her there before the hot weather ended. The guests were Mr. and Mrs. W. M. Newell, Jr., Mr. and Mrs. O. P. Cooper, Mr. and Mrs. Guy Collins, Prof. and Mrs. H. Q. Robertson, Mrs. C. W. Coe, Mrs. J. T. McFarland and daughter, Mrs. Geo. W. Donaldson and children, Mrs. Dwight M. Houston, Mrs. Benj. Blanchard, Mrs. W. H. Bukey, Mrs. Ada Shevman, Mrs. Clara Pomeroy, Mrs. Alice Griffin, Miss Mertie Jones.

Mr. and Mrs. W. M. Newell and Miss Eleanor Newell helped entertain. Mrs. Jones has been prominent in lodge work in both the circle and the lady Macabees, filling numerous chairs, and she will be missed at the summer sessions of these orders.

CONTRACT LET

Dr. Chandler, who is on the coast, telegraphs that he has let the contract for the new \$100,000 hotel at Chandler, and that work is to be commenced at once. The names of the contractors are not given. The hotel is to be modern in every particular, so far as conveniences are concerned, but will be on the old mission style. There will be a court, a fountain, every room open to air and sunlight and the house will be thoroughly equipped with baths, hot and cold air furnaces, etc.

TO INSPECT MINE

Arthur A. Jones, Geo. W. Silverthorn and Frank A. Cliff left last evening for Prescott to inspect the mining property of Messrs. Jones, Davis and Shill brothers. The property is located at Humboldt and the party will drive there from Prescott, remaining three or four days, or longer, to thoroughly inspect the property. The claims have shown some very fine ore and the prospects are said to be excellent for the development of a big paying proposition.

STUNG BY SCORPION

A few days since the young son of F. H. Harvey of Lehi was stung by a large scorpion. The poison made the boy quite sick, but the prompt calling in of Dr. Nelson soon brought relief.

MAKING IMPROVEMENTS

M. P. Holladay, who has shown unusual enterprise in the various lines of business in which he has been engaged in Mesa, is now planning to make his ranch a big paying institution. Prior to cutting his first crop of alfalfa, Mr. Holladay built a hay barn to hold 500 tons. This barn is now full and Mr. Holladay is getting the material on the ground for another barn. This will be 200 feet long, 150 wide and about twenty high. This will also be filled with hay. Instead of selling the product as baled hay Mr. Holladay has a better plan. He will erect a cow barn next to the hay barn. This will have a cement floor, with water convenient, and stalls for cows. The thirty head of dairy cows he now has will be increased by a score, and the hay will be converted into milk via the cow process. The owner figures that this will enable him to get double price for the hay and start the Holladay family well on the road to wealth.

TILING PROPOSITION

J. E. Turner was in Mesa yesterday, the guest of Paul E. Fuller. Mr. Turner has a proposition to establish a plant in the valley for the manufacture of tiling for irrigation use. So far as can be learned, Mr. Turner proposed to erect the plant at or near Phoenix, to get the advantage of both railroads, but would establish a demonstration station at Mesa. He went to Paul E. Beville, proprietor of the Mesa nursery, to secure land for the purpose, but the deal was not closed at the time Mr. Turner left for Phoenix.

The tiling that Mr. Turner proposes to manufacture will be sufficiently porous to allow the seepage of water. The pipes will be placed under ground affording sub-irrigation, thus eliminating the tendency of the soil to bake as it does in surface irrigation. It is also supposed to be one of economy in the use of water. There will be absolutely no waste, according to those familiar with this manner of applying water, and five or six acres can be irrigated by this means much easier and with the same water that is usually applied on an acre by surface irrigation.

Mr. Beville, who is probably the best posted citrus fruit grower in the valley, says the system should work here, as a somewhat similar system has been satisfactorily used in the San Joaquin valley in California. The Mesa commercial club is taking an active interest in the proposition, and it is probable that a thorough test will be made at an early date. The tiling is said to be inexpensive.

NEWS IN BRIEF

W. W. Mitchell had business at the capital yesterday.

Miss Hazel Dixon, who has been on the sick list for several days is reported as convalescing.

John Norlin, who lost his naturalization papers, has just received an official copy from the clerk of the superior court of San Francisco, where the papers were first issued. During the fire following the earthquake, the records of the court were lost and it was necessary for Mr. Norlin to practically make a new application to secure the certified copy.

B. Y. Daniels left yesterday for his old home in Alabama. Mr. Daniels

S.S.S. CURES ECZEMA. ACNE, TETTER ETC.

While Eczema, Acne, Tetter, Salt Rheum, etc., are troubles which affect the skin, their source is far deeper than the outside cuticle. These affections are caused by irritating humors, or uratic acid in the blood. Such impurities inflame and irritate the delicate network of fibrous tissue which lies just beneath the surface of the outer skin, and the inflammatory discharge thus produced is forced out through the pores and glands, and is continually kept up while the blood remains infected. This exudation causes the formation of scales and crusts so often seen in Eczema, and when they are scratched off the flesh is left raw and more susceptible to other infection. It can very readily be seen then that to produce a cure the circulation must be purified and cleansed. This S.S.S. will do. It goes down to the very bottom, removes all humors and impurities, neutralizes the excessive acids of the system and in this way removes the cause of disease. Local applications can only soothe the irritation and assist in keeping the skin clean; they never produce a cure because such treatment does not reach the blood. S.S.S. restores to the thin, acid blood all its lost properties, makes it pure and rich and enables it to nourish the skin and keep it soft, smooth and healthy. Book on Skin Diseases and any medical advice free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

expects to return to Mesa during the early fall.

Thos. Buchanan was in from Desert Well yesterday and reports the feed good in his section, and the cattle fat enough for beef.

E. P. Grover has installed a new clear show case at his place of business. It is of modern make, self locking and can only be opened by the parties who have the combination.

Bert Winger spent yesterday at Chandler town and indulged in all the dissipations of that new candidate for public favor. The dissipation consisted principally in imbibing water pumped from the deep wells and jollying Chief Charley Lewis.

The first of the columns for the ornamentation in front of the Code building on Main street was placed yesterday by Bowen & Shumway.

Mesa weather was very satisfactory yesterday. A cool breeze prevailed until late in the afternoon. The government thermometer read as follows: Maximum temperature, 97; minimum, 69; mean, 83. The day was clear, wind southwest, and the forecast for Sunday is "fair."

Local merchants are getting out their display of fireworks in anticipation of a lively sale between this date and the Fourth of July.

It is rumored that there will be a change of time on the A. E. road soon; that the Ray-Hayden business is growing so rapidly that a regular passenger train will be put on, together with freight trains, and the accommodation train eliminated. Also that a regular mid-day passenger train between Phoenix and Mesa will be put on, which will be a great convenience for Mesa people who have business in the capital.

A number of men were laid off at the works at Camp Carney yesterday, pending the completion of a survey for patent.

Mrs. R. F. Palmer and children left last evening for Lima, Ohio, to remain for the summer. Dr. Palmer accompanied them as far as Phoenix.

A SUNDAY MEETING

Rev. Wm. Scarlett of Phoenix, has sent word to the members of the Episcopal church, Mesa, that he will be here today and wants to meet with them at the church at 4:30 p. m. There is some important business to be taken care of before Rev. Mr. Scarlett leaves for the east.

SURE SIGN OF LOVE.

"Does he love her?"

"Does he love her? I should think he does. He's promised to march with her in the suffragette parade."—Washington Herald.

EXCUSES

Mrs. Muggins—I hear your husband is quite versatile.

Mrs. Buggins—Why, he can actually stay out late every night in the week and not give the same excuse twice.

AN OFFENDER'S REPRIEVE

The little boy unchided went.

"Some day," remarked his father sad, "Perhaps you will be president, and then you're going to catch it lad."
